

Training in Interdisciplinary Partnerships and Services for Kids

TIPS for Kids is the **Leadership Education in Neurodevelopmental and Related Disabilities (LEND)** training program in Missouri. The program is funded by a grant from the Maternal and Child Health Bureau in the Department of Health and Human Services. The purpose of the program is to enhance outcomes for children with autism and other developmental disabilities by training future healthcare professionals in evidence-based, interdisciplinary, family-centered, and culturally competent practices.

TIPS for Kids is seeking applicants for trainees and fellows for the 2017-2018 academic year. **Stipends and tuition waivers are available.** Applicants must be United States citizens, graduate students, post graduate students, or practicing professionals who qualify for graduate studies in the areas of occupational therapy, physical therapy, speech/language pathology, nursing, nutrition, health management and informatics, psychology, social work, special education, applied behavior analysis, or medicine. In addition, there are trainee categories for parents/family members and individuals with disabilities.

The TIPS for Kids program focuses on advancing the knowledge and skills of future leaders to improve outcomes for children with developmental disabilities. Through interdisciplinary education, trainees learn to work closely with professionals from many other disciplines. Training is provided in leadership, policy, and advocacy skills as well as family-centered, culturally-competent, and evidenced-based care.

The TIPS for Kids curriculum offers up to 6 hours of graduate credit (3 fall semester, 3 spring semester) through core courses and practicum experiences. Trainees need to be available **all day each Friday** through the course of both semesters.

TIPS for Kids applicants will be asked to interview with a panel of core faculty. Application materials consist of the following:

1. Transcripts – undergraduate and graduate (unofficial copies are acceptable)
2. Letter of Intent, including short- and long-term goals related to autism and other developmental disabilities
3. Two letters of reference, one from within your discipline and one from outside your discipline, these may be emailed directly to Amanda Moffitt Gunn (MoffittAJ@health.missouri.edu).
4. Application form

Applications are due on April 9, 2018.
